

## Use Dashboard Nodes For Creating UI(Web App)

Date	12-11-2022
Team ID	PNT2022TMID50097
Project Name	Industry – specific intelligent fire management system

**Connecting Dashboard nodes in the the Node-RED flow to send the sensor data to the Cloudant DB platform :**

## Visualizing the data in graphical format in WEB UI :

## Storing data in Cloudant DB :

The screenshot shows the Cloudant web interface for a database named 'firemanagement\_db'. The interface includes a sidebar with navigation options like 'All Documents', 'Query', 'Permissions', 'Changes', and 'Design Documents'. The main area displays a list of documents in a table format, with columns for 'id', 'key', and 'value'.
